What is this type of insurance?

This Electric Vehicle Insurance Policy provides you with third party liability cover, as required by law, to drive a car on a road. This type of cover is commonly known as Third Party Only. You can upgrade cover to include fire damage to or theft of your vehicle, commonly known as Third Party Fire and Theft, or upgrade to Comprehensive where cover also includes accidental loss of or damage to your vehicle.

What is insured?

Motor Insurance covers third party liability as required by law (TPO) i.e. any damage caused to persons and property. Limits of liability are €6,450,000 for bodily injury and €1,300,000 for property damage. These limits apply for each accident irrespective of the number of third parties involved. If you opt to purchase Third Party Fire & Theft (TPF&T) or Comprehensive (COMP) cover you would need to establish a sum insured for your vehicle. This should reflect its market value and claims will be settled on the basis of this value at the time of loss. Apart from TPO insurance the TPF&T policy provides cover against loss or damage to the vehicle caused by fire, self ignition, lightning or explosion, and/or theft or attempted theft. The COMP policy provides cover for other loss or damage to the insured vehicle.
