Abridged Financial Statements for the year ended 31 December 2009

REVIEW OF THE BUSINESS

Middlesea Valletta Life Assurance Co. Ltd. ("MSV Group" and "Group") registered a profit after tax of €6 million for the year ended 31 December 2009 compared to the profit after tax of €2 million recorded in 2008.

Gross written premiums (including investment contracts without DPF) increased by 14% from \in 110 million in 2008 to \in 125 million in 2009. This increase in business is largely attributed to a strong demand for with-profits savings related policies in particular the MSV Single Premium Plan.

Net investment income increased from a loss of \leqslant 32 million in 2008 to an income of \leqslant 61 million in 2009. MSV registered a very significant improvement in its investment performance as its conservatively positioned and diversified portfolio of quality assets was very well placed to capture the upturn in investment markets.

The MSV Group's total assets increased from €843 million at the end of 2008 to €999 million at the end of 2009, whilst the Life Fund (including investment contracts without DPF) increased by 18% from €742 million in 2008 to €879 million in 2009. The value of in-force business increased by 2% from €40 million in 2008 to €41 million in 2009. The value of in-force business reflects the discounted value of projected future transfers (after providing for taxation) to shareholders arising from policies in force at the end of the year.

Total equity at the close of 2009 amounted to €107 million an increase of 19% over the previous year.

The shareholders of MSV are wholly committed to ensure that MSV is well capitalised at all times. On 31 August 2009 an increase in the issued share capital of MSV was effected through a fresh issue of shares which was fully subscribed. As a consequence the issued share capital of MSV increased from \le 42 million to \le 44 million, whilst on the same date the authorised share capital was increased from \le 50 million to \le 60 million.

As a result of new regulatory capital requirements for life companies that came into effect on 1 January 2010, the shareholders of MSV resolved to further increase the issued share capital of MSV from €44 million to €52 million, with

effect from 31 December 2009, through the injection of new capital. Strong capitalisation is necessary to support the new business growth plans for MSV, whilst at the same time meeting in full the requirements of policyholders and the insurance regulator.

The Board of Directors of MSV Group approved a resolution whereby differential rates of Regular Bonuses were declared in respect of with-profits plans held with MSV Group for the year ending 31 December 2009. These amounted to 3.25% for the Comprehensive Life Plan (regular and single premium policies), 3.45% in respect of the Comprehensive Flexi Plan (regular and single premium policies), 3.45% under the Single Premium Plan and 3.45% under the with-profits option of the MSV Investment Bond and of the MSV Retirement Plan. On the 'Old Series' Endowment and Whole Life policies, a Regular Bonus of 2.2% of the basic sum assured plus bonuses was declared. Finally, the Board also approved a Regular Bonus of 3.45% on those Secure Growth policies which formed part of the portfolio of business transferred to MSV Group from Assicurazioni Generali S.p.A. during 2000.

Notwithstanding the prudent investment policy adopted by MSV, past performance is no guarantee for the future. Although MSV's with-profits investments have generally provided policyholders with satisfactory returns when compared with other similar investment products, in the light of the current uncertainty in the capital markets, investment returns could fluctuate further. Fair value movements and lower investment returns impinge directly on the rates of bonuses declared by MSV. Regular Bonuses are therefore expected to vary over the lifetime of the policy.

During 2009, MSV continued to strengthen its position in the local market as the leading provider of life insurance, long term savings and retirement planning. Through the combination of a strong brand, solid reputation, financial strength, product breadth and distribution reach, in particular the successful bancassurance partnership with Bank of Valletta p.l.c., MSV is set to continue to grow its business in the local market by developing new products, by creating new demands for life and investment related products and by delivering the highest standards of service to its customers.
